## EXPERIENCE

### Bentley's House of Coffee and Tea, Tucson Arizona

March - 2017 - PRESENT

Currently working as a cook, and manager responsible for creating a friendly and productive work environment while performing day to day tasks throughout the restaurant.

### Northern Arizona University, Flagstaff Arizona

May 2016 - March - 2017

Employed at Northern Arizona University's Ardrey auditorium, responsible for technical details during performances such as lighting effects and making sure everything went smoothly th

### La Cocina, Tucson Arizona

June 2015 - August 2015

La Cocina provided a great environment in between college years to build social skills and work ethic. The primary responsibilities of the job included dishwashing and running food to tables as well as closing down the kitchen at night.

## EDUCATION

### University of Arizona Coding Bootcamp, Tucson Arizona

April 2019 - October 2019

This six month coding bootcamp was the first step into the ever changing industry of computer programming. It provided a rigorous curriculum with the primary focus being on learning the complete MERN stack.

### Northern Arizona University, Flagstaff Arizona — *Journalism*

August 2014 - March 2017

After pursuing a degree in journalism for two and a half years, realizing it wasn't what I wanted to do, I left the University and started researching and practicing computer science as a hobby.

## SKILLS

Proficient Knowledge of the following:

1. HTML5/CSS3
2. Git/Github
3. Javascript
4. jQuery
5. MySql/Mongo
6. Handlebars
7. React.js
8. Electron.io
9. Google Firebase

Working Knowledge of the following:

1. Java
2. PHP
3. Python

## PROJECTS

### Ecobourne — *a life cycle simulation*

Ecobourne was the final project I worked on in the programming bootcamp. The entire app was built with React.js, Electron.io, Socket.io, Google Firebase, and styled using css3.
